GRAND TOTAL: 2022 - 2026	2570.54

* As at 18 October 2022, including all commitments and pledges for 2022-2026 strategy period. Exchange rates based on historicals or on UN exchange rates of 14 October 2022.

** GAVI funding for procurement of IPV totals US\$ 747million and does not include technical assistance, roll out of IPV2, and catch up. The funding reflects a fall in the price of IPV from 2021 to 2022. GAVI also provided US\$ 214 million in funding in 2021.

¹ Pledge includes funding applied to Rotary 2:1 match.

² Includes € 37 million for 2023 still subject to parliamentary approval.

³ HH Sheikh Mohamed Bin Zayed Al Nahyan pledged US\$ 160 million in 2019. Figure includes the amount that will be applied to the 2022-2026 strategy period.

⁴ Subject to the approval by the National Assembly.

⁵ Funding from World Bank loan.

⁶ Includes contributions from Al Abdula Family, Alwaleed Philanthropies, Dalio Philanthropies, The Charina Endowment Fund, Kasta Technologies and Vitality.

⁷ Pledge includes funding received from Bill & Melinda Gates Foundation 2:1 match

⁸ In FY 2021 and 2022, CDC's polio eradication appropriations totaled US\$ 354 million. This funding supports direct awards to UNICEF, WHO, and additional activities such as embedding of CDC's polio subject matter experts, technical support, and world reference laboratories. In FY 2021 and 2022, USAID's polio eradication appropriations totaled US\$ 140 million. This funding is directed towards supporting WHO and UNICEF for disease detection and communication activities; as well as support to a network of non-governmental organizations (NGOs) for community-based programs that focus on surveillance and social and behavior change. USAID also provides technical surge staff and subject matter experts.
